SUMMARY

I'm a passionate **Frontend UI Developer** with over 2+ years of practical experience crafting dynamic and responsive web applications. My expertise spans across the frontend technology stack, including HTML, CSS, and JavaScript. I am proficient in modern CSS frameworks like Tailwind, Bootstrap, and Material-UI allow me to build intuitive and visually appealing user interfaces.

With a keen eye for design, I am adept at crafting intuitive user interfaces using HTML, CSS, and JavaScript. My skill set also includes popular CSS frameworks like Tailwind, Bootstrap, and Material-UI. I am seeking to contribute my technical prowess and creativity to a dynamic team where innovation and excellence are valued and a proven track record of delivering high-quality, scalable solutions within deadlines.

WORK EXPERIENCE

Frontend Developer | Pulp Strategy Communication

07/2024 - Present

- Translate UI/UX designs into actual code that forms the visual elements of a web application. Ensure designs are responsive visually consistent across different screen sizes and devices.
- Designed and optimized components for improved performance, ensuring a smooth and engaging user experience.
- Develop clean, scalable, and maintainable code using languages like HTML, CSS, JavaScript, JQuery, Tailwind CSS, Bootstrap and visually appealing interface.
- Actively participated in Agile development processes, attending daily stand-ups, sprint planning, and retrospective meetings.
- Ensure that the website loads quickly and efficiently by optimizing assets like images and reducing unnecessary code.

Frontend Developer & UI/UX Developer | E Global Soft Solutions

05/2023 - 07/2024

- Collaborated closely with cross-functional teams, adeptly gathering requirements, and transforming them into scalable, aesthetically pleasing front-end solutions for diverse projects.
- Played a dual role as a UI/UX Developer, combining design principles with technical expertise to create visually appealing and intuitive interfaces.
- Collaborated closely with the design team to implement UI/UX concepts, combining the power of React.js with the flexibility of Material-UI's extensive component library and Tailwind CSS for a seamless user experience.
- Integrated React Router for seamless navigation within the application, enhancing the overall user experience.

UI/UX Developer | Gully2global pvt. ltd.

09/2022 - 05/2023

- Designed and implemented user interfaces using modern UI/UX principles and best practices.
- Developed interactive features and functionalities to enhance user engagement and satisfaction.
- Familiarity with GSAP, ScrollTrigger, or other animation libraries.
- Maintain design consistency by developing and adhering to design systems and UI frameworks.
- Utilized Brevo for lead tracking and management, streamlining the sales process and improving conversion rates.
- Conducted usability testing and gathered feedback to iterate and improve the website's user experience.
- Collaborate with product managers, designers, and developers to create seamless and intuitive user interfaces for web and mobile applications.

RECENT PROJECTS

E-Commerce Website Zoya | zoya.in

- Developed the website's HTML structure and CSS styling, focusing on semantic markup and reusable CSS components.
- Built responsive layouts using Bootstrap 5, ensuring consistency across multiple screen sizes.
- Created interactive animations and transitions using GSAP and ScrollTrigger, adding smooth scrolling, and fade-ins.
- Utilized Bootstrap's grid system to create a fully responsive design, ensuring optimal user experience across devices.

Business Website Nobeglobal Solutions | nobeglobalsolutions.com

- Improved frontend performance and responsiveness through optimization techniques.
- Created mobile-friendly screen dashboards using Bootstrap, JavaScript, and JQuery.
- Leveraged Tailwind CSS utility classes for rapid UI development and customization.
- Collaborated with designers and backend developers to integrate the front end with backend functionalities and ensure
- Seamless user experience.

Service Providing Website Neshuns | neshuns.com

- Handled the complete frontend development using HTML, CSS, and Bootstrap to create a structured and visually appealing UI.
- jQuery & JavaScript Integration: Developed dynamic and interactive components like animated sliders, navigation menus, and content filtering using jQuery and JavaScript.
- Cross-Browser Compatibility: Thoroughly tested the website across major browsers (Chrome, Firefox, Safari, Edge).
- Cross-functional collaboration: Worked closely with designers and backend developers.
- I developed a modern, responsive business website tailored to enhance brand visibility and engage potential customers.

Lead Generation Website | tavva.in

- Creative UI/UX Design: The website boasts a visually striking design focusing on intuitive navigation and user-friendliness.
- Interactions, aimed at maximizing lead generation.
- Lead Capture Forms: Developed optimized and accessible forms designed to capture user information efficiently and convert visitors into leads.
- Fast Load Times: Optimized CSS, JavaScript, and image assets to improve site performance and ensure quick load times, which is essential for user retention and SEO.
- Interactive Elements: Integrated dynamic components using jQuery to enhance user interaction, including animated buttons sliders, and scroll-based effects.

CERTIFICATES

Programming for everybody Python | [CERTIFICATE](#)

January - 2022

- Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.
- Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.

The fundametals of digital marketing (Google) | [CERTIFICATE](#)

December - 2021
