PROJECTS

Putnaam

🔗 putassoc.com

Focusing on delivering visually stunning and user-centric interfaces. My work involves meticulous attention to detail.

- By harnessing a diverse range of frontend technologies such as JavaScript, HTML, Bootstrap, jQuery, CSS, and Git, I have effectively developed innovative and interactive websites.
- These tools have enabled me to transform design ideas into reality.

Tavya Ceramics E-Commerce Website

🔗 tavya.in

The goal of the Tavya website is to serve as an engaging and visually appealing online platform for capturing user information and displaying e-commerce products.

- Enhance website interactivity and responsiveness by leveraging front-end technologies like JavaScript, jQuery, Bootstrap, HTML, and CSS.

Alcovia Clinical Research Center

🔗 alcoviaclinicalresearch.com

Alcovia is a site management organization (SMO) which also provides online courses for candidates and job placement service for clinical research organizations.

- The project includes designing and developing the Alcovia website using a combination of HTML, CSS, JavaScript, and WordPress with Elementor.

Rental Palace Whole Sale

🔗 rentalpalacewholesale.com

- The Rental Palace Wholesale website is a comprehensive platform designed to provide a summary of wholesale real estate properties. It serves as a centralized hub for wholesale property listings, offering key information to potential buyers and investors.

Nobeglobal Solution

🔗 nobeglobalsolutions.com

- Using a potent blend of HTML, JavaScript, Bootstrap, jQuery, and CSS, our team crafts websites that don't just look good - they perform exceptionally well too
- Develop a cohesive visual identity and design system for the website, including typography, color schemes, and UI elements

Service Providing website

🔗 neshuns.com

- Advanced driver website, driver website design, driver website UI, frontend technologies for website design, creative website UI, modern website UI design, user-friendly website UI, responsive website UI, interactive website UI, visually appealing website UI, dynamic website UI, and web development frontend technologies.
